## **DETAILED ACTION**

1. Claims 1-30 are pending.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 19, 27, 28, drawn to product, "a DNA launching platform", classified in class 435, subclass 475.
- II. Claims 8-18, 20-25, 26, 29-30, drawn to method of using the "DNA launching platform" of I, classified in class 800, subclass 278.

2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different process: namely another method of permanently altering the genetic complement of the host like for example by mutagenic crossing over, viral infection, or other non-vector dependent DNA insertional event.

3. Because these inventions are distinct for the reasons given above and the search required for Group 1 is not required for Group II, and because of their recognized divergent subject matter, and different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
